BEAT THE BURGLAR

Secure your windows and doors at all times!

Don’t make it easy for them!

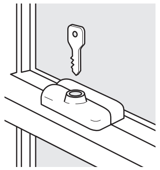
HAVE YOU SEEN OR HEARD ANYTHING SUSPICIOUS?

YOUR INFORMATION COULD BE EXTREMELY IMPORTANT!

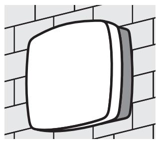
THIS INFORMATION COULD HELP PREVENT YOU BECOMING A VICTIM.



WINDOW SECURITY

All ground floor and accessible first floor windows should have key operated locks fitted. Rear windows are often used as a means of entry by the criminal. Purchase locks that secure the frames together rather than to handles.

Fitting timer switches to lamps around the house to activate at different times during the evening gives the impression someone is at home.



OUTDOOR LIGHTING

Good outdoor lighting can put off or draw attention to a burglar.

The most appropriate form of lighting to use is high-efficiency low-energy lighting, controlled by a dusk-to-dawn switch so that it comes on only when it’s dark. This provides a constant and uniform level of light. It costs very little to run and helps to create a more reassuring environment.

GARDEN SHED

The standard garden shed was never designed to store valuable items such as pedal cycles and electrical items. Shed doors should nave a minimal of two quality hasps fitted, secured with coach bolts and closed shackled padlocks. Windows need to be grilled or boarded. Large items can be chained together and secured to fitting on the sheds floor. Battery operated alarms can be purchased from most DIY stores.

TOOLS LEFT IN SHEDS AND GARDENS ARE OFTEN USED TO MAKE A FORCED ENTRY INTO HOMES.

FRONT DOOR SECURITY

- uPVC doors have a number of different locking methods.
- Please check that your doors meet the requirements of your insurance policy. Most insurance companies insist on three locking points

WHETHER YOU HAVE A WOODEN OR UPVC DOOR, USE DOOR CHAINS AND VIEWERS AT ALL TIMES
